Stakeholder communication, effective requirement elicitation, clear documentation, cross-functional collaboration.
- **Professional & Behavioral Skills**
Time management & organization, collaboration & teamwork, adaptability & quick learning, proactive self-learning

🏢 PROFESSIONAL EXPERIENCE

Business Analyst | AI Lead Generation & Classification

Currently working

- Worked as a Business Analyst on an AI-powered Lead Generation & Classification POC, enabling automated lead engagement through a WhatsApp AI chatbot and providing lead/customer insights through a web dashboard.
- Created and maintained BRD, RTM, test cases, user flows, and functional requirements covering lead capture, customer identification, AI conversation, qualification, lead classification, follow-up, and dashboard functionality.
- Collaborated with developers and AI engineers to clarify requirements, translate business needs into functional requirements, and support implementation of chatbot and dashboard features.
- Performed functional testing, UAT support, gap analysis, and requirement validation across chatbot, backend, database, and dashboard workflows.
- Supported AI chatbot fine-tuning and testing, validating response quality, qualification logic, Hot/Warm/Cold classification, conversation continuity, follow-up scenarios, and human handoff.
- Identified and coordinated resolution of functional issues and edge cases, including incorrect classification, repeated responses, non-responsive customers, conversation-ending logic, and contextual responses.
- Validated the end-to-end workflow: Ad Click -> Lead Capture -> WhatsApp AI Engagement -> Qualification -> Lead Classification -> Dashboard -> Agent Action.
- Worked with the team to ensure customer details, product interest, conversation history, lead classification, AI summary, and follow-up information were available for sales-agent actions and dashboard reporting.

Business Analyst

Upwork (Freelancing) 11/2025 – 05/2026

- Assisted senior Business Analysts in requirement gathering through stakeholder meetings, discussions, and interviews.
- Helped in preparing and updating BA documents such as BRD, FRD, SRS, User Stories, Use Case diagrams, and MOMs.
- Supported seniors in analyzing requirements, identifying gaps, and validating information with stakeholders. Created and updated process flow diagrams, basic UML diagrams, and workflow charts to explain system behavior.
- Participated in requirement discussions, noted action items, and shared updates with the project team.
- Contributed to RTM by mapping requirements with test cases in coordination with QA teams.
- Assisted in cross-team communication between development, QA, and business stakeholders to clarify doubts. Helped seniors manage RAID logs (Risks, Assumptions, Issues, Dependencies) and follow up for resolution. Supported basic UAT activities, coordinating test scenarios and validating requirement fulfillment. Documented meeting minutes (MOM), shared summaries, and ensured all team members were aligned.

Assist in gathering and analyzing business requirements and analyzed business requirements from stakeholders.

Collaborating with stakeholders to identify process improvements, and supporting the development of functional documentation.

Contribute to data analysis using Excel and prepared reports and help in creating use cases and workflow diagrams to facilitate effective communication between business and technical teams. Assisted in identifying process improvements, contributing to BPMN modeling and stakeholder communication.

 PROJECTS

Business Process & Application Enhancement Projects

Small & Large scale E-commerce

- I collaborated with internal stakeholders and technical teams to gather and document requirements, analyze current workflows, and identify improvement areas. I assisted in creating functional requirement documentation, user stories, and acceptance criteria, and supported coordination between business and development teams to ensure clear requirement understanding.
- **Key Focus Areas:** Requirement gathering, process analysis, stakeholder coordination
- **Tools & Exposure:** MS Excel, JIRA, SQL (basic), Agile methodology
